Cozy winter

A nice warm blanket and a hot cup of chocolate milk. That is the feeling we want to convey with this new magazine. Even though we are in the middle of the summer right now, you can feel the warmth of our new collection.

Our main theme coming season is Camo, short for Camouflage. Green earth tones combined with animal skins, like a crocodile print or a sheepskin pillow. All type of green tones mixed with browns. Like you walk through a forest after a rainstorm. But then combined with a lot of luxury. The next page and the cover is in this new style.

The winter is about feeling cozy and at home, hearing the rain ticking against your window. At Light & Living we have several styles so no matter where you live or what you like, we are able to provide you that feeling. If you like rural then check out Porto, if you like colours then you will love Emerald. Fond of Modern? Then have a look at page 22.

We hope we have again surprised you with our new collection and that we may inspire you for coming season.

Lots of love.

A WORLD OF INSPIRATION

Camo is short for camouflage. Concealed colours such as moss green and peanut brown are main colours. Reptile skin patterns, wood and leather combined with brass and glass gives Camo a luxurious look.
